## Sunny Living Room

S2004 Instruction Manual

# NOTICE OF ASSEMBLE

## Tips for assembling

1. Because this product contains small parts, children need to use this product with an adult to avoid accidental ingestion and cause suffocation hazard. There are sharp objects in the product, be careful not to pierce people to avoid injury.
2. After all the materials are used in the required amount in the operation steps, put the remaining materials back into the original bag until the installation is completed. (Avoid losing materials during the installation process)
3. The unit of dimension marked in the step diagram is "cm".
4. Tips for making template paper: Put the template on the back of the material, fix it with some small double-sided tape, and then cut out the material to prevent the cloth or template from moving in the cutting process, or causing errors in the cut material. Or lead to insufficient materials.
5. According to the "Parts Rule Example" at the bottom of this page, refer to the parts on the part number drawing, find the actual product and compare it with the bill of materials, and then install it after confirming that it is correct. (Wooden parts only)
6. It is not advisable to apply too much glue, so as not to wait for a longer time to dry, and overflow will affect the effect of the finished product.
7. There are unavoidable small deviations in the color of wood, fabric, and beads of different batches, without notice, thanks for understanding.

## Tips for Assembling Wood

Find the corresponding block number, use a knife in the connection point gently press, you can take out the wood.

Use a knife to smooth out the burr.

Or use sandpaper to smooth out the burr

## Testing on LED function

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

1 DO NOT contact the LED wire end direct to the battery cell.

2 Use the provide battery holder. Make sure the correct polarity.

## How to assemble the battery holder

1. Material and tools needed:  
- Battery holder, LED bulb, tape, screw driver and 2 pieces AAA size battery(not provided)

2. Use screw driver and take the lid off from the battery holder.

3. Insert the battery take notes on the polarity.

4. Connect the red wire to grey wire. Connect the black wire to white wire.

5. Wrap the exposed wire with the tapes.

6. Place the box lid and fastness with screw driver.

## Examples of parts rule:

A01: The parts are directly in the box; B01: The parts are in the B bag; C01: The parts are in the C bag, and so on (Note: The printing paper is displayed in the step A07-1: The printing paper is placed directly in the box, The part number is A07-1. In the step, the template paper A08-C01 is displayed, A08 is the template paper, C01 is the cutting template used for the corresponding material, C01-1. C01-2 are the part numbers for the parts, and the printing paper and template paper are directly placed in the packaging box.)

## Contents

Name	Materials Package
printing paper& template paper	A bag A07,A08(all printing paper are set in A07,all template paper are set in A08;total 2 pieces of A4 paper,3 pieces of A5 paper)
cabinet	B bag + C bag + D bag+printing paper+template paper page 3-4
curtain	B bag + C bag + template paper page 4
wall painting	B bag + printing paper page 4
sofa	A bag+C bag+D bag+template paper page 5-7
table	B bag + C bag + D bage+printing paper+template paper page 7-8
plant	C bag +printing paper+template paper page 8
door	B bag + C bag + D bag+template page 8-9
wall light	C bag + D bag+E bag+template page 9
outer frame installation of battery box	A bag+B bag +printing paper page 9-10
dust cover	E bag page 11

## Symbol description used

Install parts in the opposite direction

Install the same parts on both sides

Pay attention to the direction of installation material A

stick to material B

stick to material B

stick to material B

Fold in half according to dotted line

fold double edge to center dotted line

Fold four sides to the middle

Pay attention to the direction of installation material A stick to material B

stick to material B

stick to material B

stick to material B

combination part according to the symbols so on.

## About the use of glue

Method for using glue:

1. After applying the glue, let it dry for a few seconds before pasting.
2. Fix it slightly with your hands, and finally put it aside to dry;

## Tips:

When pasting the plane printing paper, a piece of waste bank card or telephone card can be used to wipe evenly after the glue is smeared on the wood board, and then the printing paper is pasted to squeeze out the air inside.

## Types of glue:

- White latex: Used for adhering soft materials, such as wood and paper.
- Alcoholic Glue: Used for adhering hard materials such as cloth, plastic, beads, wire, dust cover, etc.

Please cut out the C04,C05 according the template paper of A08-C04,A08-C05 before making

Cabinet

1

A07-5

C05-1

A07-5 Fold according to the dotted line and paste C05-1 on it (dotted line inside)

2

3

Paste together with glue

4

(black side)

Paste the A07-5

5

(obverse side)

6

Paste together with 3 pieces of A07-2

7

Roll up the first paper as picture

8

A07-7

Fold according to the dotted line

9

Paste as picture

10

A07-7

Finished

11

C04-1

Fold it and cut it, length about 0.1mm

12

As picture

13

Roll up with glue

14

Lean down as flower

15

Cut out as red line

C13

16

17

Paste C04-1 on the C13

18

D02

19

A07-3

B15

20

A07-4

Paste it and cut out the extra paper

21

Finished

22

Fold it as dotted line and paste

23

24

25

26

27

28

29

30

31

Put the all parts as picture

Please cut out the C03, C05 according to the template paper of A08-C03, A08-C05 before making

1

Fold it as picture

2

Paste

3

Fold the C03 and pasge on it

4

Need 2pieces

5

Paste together with C05-5, C03-4

6

Paste B02 on the top

7

Finished

Wall painting

Past B10 on the A07-9

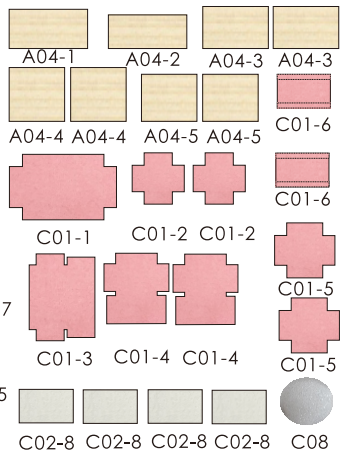

2

Need 2pieces

Please cut out the C01,C02 according the template paper of A08-C01,A08-C02 before making

Sofa

42

43

44

45

Please cut out the C05 according to the template paper of A08-C05 before making

Table

1

Roll up and paste

2

3

Roll up and paste

4

5

Bend it as picture

6

7

Fold A07-13

8

A07-17 Fold according to the dotted line

9

Make A07-13 paste in A07-17

10

Roll up the page 1 as picture

11

A07-15 Roll up and paste the edge

12

13

14

15

Cut out the D10 width about 0.2cm, need 2 pieces; then cut in half with each piece.

16

D10

17

Paste on the cake  
as picture

18

19

A07-14

20

21

22

23

24

Paste as picture

Please cut out the C05, C07 according to the template paper  
of A08-C05, A08-C07 before making

Plant

C05-2

A07-23

A07-22

C05-2

C07-1

C10 (3.5cm)\*2

C10 (3cm)\*2

C10 (4.5cm)\*2

1

Cut out the A07-23

2

Bend it down as picture

3

A07-22

Paste it together and  
cut out the centre

4

C07-1

Roll up and paste

5

Finished

6

C10

Put the C10 in the pot

7

C10

Bend the C10 as picture

8

Paste A07-23 on the C10

9

Finished

Door

Please cut out the C03 according to the  
template paper of A08-C03 before making

8 Make the wires through the holes separately and fixed with glue

## How to assemble the battery holder

Statement: the lamp wires cannot be inserted into the output socket.

- Can use 2\*AAA batteries
- Please notice the place of anode and cathode when put in the batteries
- Rechargeable batteries are not blunt electricity
- Rechargeable batteries can only be charged under adult supervision
- Rechargeable batteries should be removed from the toy before charging
- Different types of batteries cannot mix; Do not mix new batteries in use with semi-used batteries.
- Run out of battery should be removed from the toy
- The power shall not be short circuit

# Installation of dust cover

## Dust cover

scale:1:6  
Z01 plexiglass(transparent)  
13\*13\*0.13cm(1piece)

scale:1:6  
Z02 plexiglass(transparent)  
12.5\*11\*0.13cm(1piece)

scale:1:6  
Z03 plexiglass(transparent)  
12.37\*11\*0.13cm(1piece)

1 (plane display drawing)

stick Z02 and Z03 on Z01

2 Ripped one side of kraft paper, leaving one side of kraft paper

Take out the plexiglass and tear off the kraft paper with text on each piece of plexiglass

3

The kraft paper that has been ripped off faces inwards, and the kraft paper that has not been ripped out faces outwards. Place Z01 to the right at a right angle of 90 degrees to Z02

4

Use E04 to fix the junction of two pieces of plexiglass. (use transparent tape to replace E04)

5

The junction of every two pieces of plexiglass needs to be fixed with E04 (to prevent the plexiglass falling off)

6

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

7

(Internal inverted transparent view)

Leave it for 1 hour. After the glue dries out, tear off a layer of kraft paper outside the plexiglass.

8

9

Photo of Dust proof cover

Great!!It had finished!  
It can be combined with other designs,would you like to see them?

# FULL DISPLAY OF NINE SERIES

(Roof need to purchased separately)
